**\*See current catalogue for further detail**

# Clouded Leopard Range of Single Power Points

- Fits standard Australian wall boxes and mounting accessories that use 84mm mounting centres.
- Uses brass tunnel terminals that have the screws backed out for easier installation of cabling. Power point terminals have 6mm bore to suit 4 x 2.5mm$^2$ cable. Switch terminals have 4.1mm suit 4 x 1.5mm$^2$.
- Combination head screws for the socket terminals.
- Uses 'Cat Flap' screw covers for IP rating mounting screws.
- Dolly indicator colour green.
- Socket outlets approved to AS/NZS3112.
- Typical example of size seen below:

**Cleaning Guide:**

Spraying cleaning products directly on to electrical switches or power points (sockets) is not recommended.

It is important to ensure that switches are turned off before cleaning.
Do not use any cleaning sprays - only wipe down with damp cloth or rub with dry cloth. Do not use an abrasive cloth as it may scratch the plastic.

Do not use harsh chemical cleaners as these can break down the plastic and cause it to crack.

Do not wash the cover plates in water over 60°C.

*Push button mechanisms, MEPBE, MEPBMW, DIMPBD used in conjunction with Clouded Leopard plates.*

# Clouded Leopard Range of Switch Plates with Push Buttons

These two assembly styles will be available in Matt White and Matt Black as finished products.

- Two models of Clouded Leopard are available prepopulated with MEPBE electronic push button switches and fitted with the special MEBUCMW flat button.

- These assemblies provide the simple convenience of the switch for use in many common applications.

- Where there are other applications for multiway switching the MEPBMW in matt white finish can be combined with the CLSWPV1GMW single gang plate through to the 6 gang plate can be installed along with the Matt White MEBUCMW button or other MEPBE.

- Other assemblies will likely require multi way switch combinations so must be purchased as separate components for switches, plates and buttons.

- The plates can also be populated with the DIMPBD where dimming is needed in the same technique as the MEPBE.

- These assemblies can also be produced in the matt black finish.
