WET AREA

The AX-501-W are a series of Hard-Wired Wet Area Call Points that are designed specifically for areas where water and moisture can occur. This includes bathrooms, pool areas and not limited to any other areas that experience high water exposure.

The Call Point has two buttons on its face. A Call Button for making the call, and a Cancel button to cancel the call. The buttons illuminate for reassurance for peace-of-mind.

Order

Product Code	Description
