LED Display with Annunciator

The Adtex LED Display range are stand-alone LED and Tone annunciators that are ideal for any situations where calls need to be enunciated with a Tone and Description.

The displays have three colours, RED, GREEN, and AMBER and are simple and reliable. All displays come with a volume control for individual volume control of each display.

The displays are fully compatible with all Adtex Nurse Call Systems and are powered from 12VDC. They come in 4 types. Mini and Standard size Single-Sided and Mini and Standard Double-Sided.

Key Benefits

- Bright LEDs for high visibility
- Each display's volume can be individually adjusted
- High reliability
- Only one cable required for each display making installation easy
