Steps for Installation:

1. Make sure that the electrical circuit is free of voltage (master switch off)
2. Install Suspension Kits in desired locations using appropriate screws for application.
3. Adjust cable length and cut off any excess.
4. Remove bracket from canopy by pulling gently
5. Install Bracket in desired location using appropriate screws for application
6. Slide cable through canopy
7. Connect the cable: Use wire with earth, connect earth first then positive and then neutral
8. Reattach canopy to bracket by pushing gently until canopy clips into place.
9. Fitting is preset to 3000k, To change slide switch on top of fitting to desired colour temperature
10. All connections must be carried out carefully, inspect all contacts before switching back on the electric circuit.

Must be installed by a licensed electrician
