

Curved Fascia Bracket

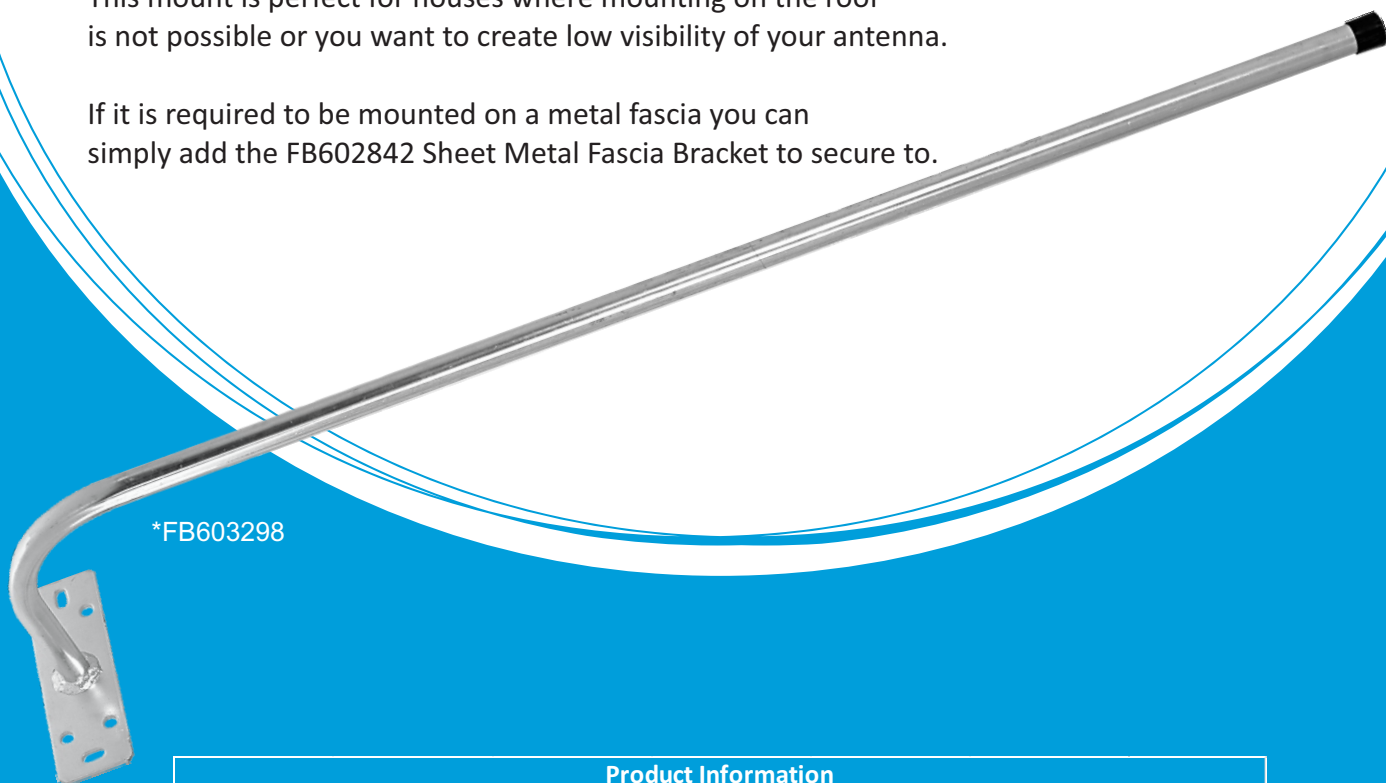

Models:
FB602406
FB602406B
FB603298
FB603004
FB606404

Product Description:

The Hills Antenna Curved Fascia Brackets are mounts used for smaller free-to-air antennas that require attachment to the timber fascia of a dwelling.

This mount is perfect for houses where mounting on the roof is not possible or you want to create low visibility of your antenna.

If it is required to be mounted on a metal fascia you can simply add the FB602842 Sheet Metal Fascia Bracket to secure to.

*FB603298
