

High Performance Home Theatre Speaker Cable

**Models Available: BC74610
BC74611 & BC74612**

Product Description:

The Hills Antenna High Performance Home Theatre Speaker Cable is available in three different gauges. 16AWG, 14AWG and 12AWG.

The speaker cable is very flexible and less likely to kink during installation.

The red line polarity mark helps identify positive/negative.

Features:

Transparent clear PVC

High strand count (Refer table below)

Red line polarity marked

100mtr Plastic Spool

Overview:

Advantages of CCA (Copper Clad Aluminum) – CCA compared to OFC (Oxygen Free Copper). CCA wire offers the same signal frequency and reliability in terms of corrosion resistance to copper wire. The advantage of the CCA speaker wire is its lighter and more flexible than copper wire. The cost of CCA compared to OFC is much lower and has the same functionality and reliability as OFC. The cable is made of high grade CCA (Copper Clad Aluminum), ensuring high fidelity sound quality and providing maximum conductivity and durability.

Part Number	AWG	Number of Strands	Single Wire Diameter	Cable Dimensions including Insulation
BC74610	16	65	0.16	2 x 3.5mm
BC74611	14	105	0.16	2 x 3.7mm
BC74612	12	168	0.16	2 x 4.2mm
